

CUBEX take your project from planning to completion in three easy stages

STAGE 01

We respond promptly to every customer enquiry.

Once we've measured up and completed a site survey - we'll draw up a proposal for your project.

STAGE 02

Asbestos in your building?

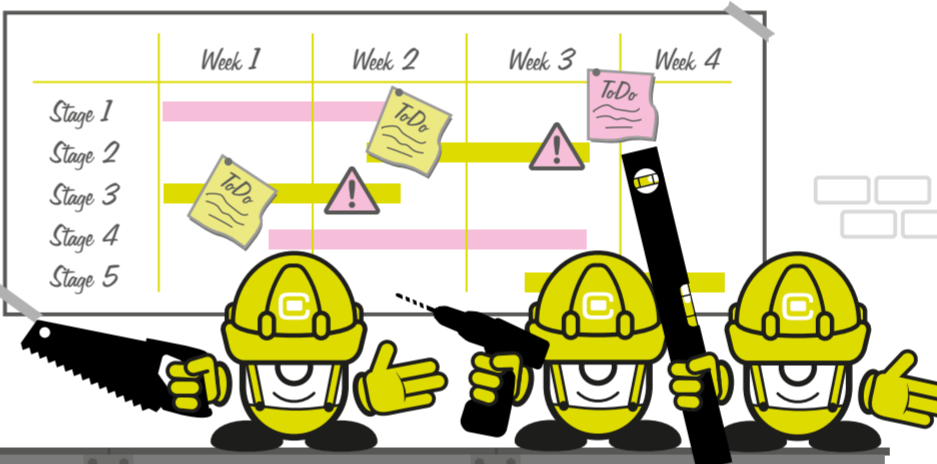

If we find Asbestos it doesn't necessarily mean we can't go ahead with your project. Leave it to us.

We'll even speak to **Building Control** and give advice on Building Regulations

Occupying a building built before 2000? We can arrange for you to obtain an **Asbestos Register** for your building if you haven't got one.

Concerned about your HSE obligations under the CDM regulations? We'll manage that for you.

A **Project Programme** providing details of the timescales for your project as well as areas of disruption, keeping all parties informed of what's happening.

We only use trusted contractors

All our contractors are "bona fide" this means they are certified, qualified, insured and professional at all times.

We'll help you to choose the 'finishes' and finer details to create the right look for your corporate brand.

Your project will be managed by a dedicated **Project Manager** - who is supported by our team back at Cubex Contracts HQ.

STAGE 03

We're there throughout your project to ensure it runs smoothly.

FOR THE CLIENT

- Risk Assessment
- Site Safety File

VARIATIONS AND ALTERATIONS

Total £ _____

(No hidden costs or surprises)

REVIEW 12 MONTHS

REVIEW 6 MONTHS

We'll stay in touch after the project is completed.

How did we do?
We carry out a satisfaction survey because your feedback is important to us.

GOOD BAD

At the end of your project we give you copies of all the important documents including guarantees, certificates and operating instructions.
